

December 16, 2011

Dear Parents,

Thank you so much for the delicious food, we all had a wonderful celebration.

The school was able to donate over 1000 pounds of food to the Hawaii Food bank. The can your child donated was their ticket to a magic show that was enjoyed by all on Thursday morning.

The Colonial project and science body system projects were shared this week and some of the models demonstrated were pretty awesome. We will have closure to both projects when we return in January and they will be taking it home.

Homework:

Reading Response on **2 different independent reading books**. They have a sheet in their planner with rubrics.

- One is a letter, which is the same assignment they did on the October break.

- The other is a one pager. They have a completed one pager they should also have in their planner to refer to.

Regular assignments:

Read daily for 20 minutes

KIDBIZ at least 3 a week and 1 thought question

Mathletics: I have assigned activities for them to complete. They should have completed all of the fraction and decimal lessons and taken the test for it. If they have difficulty with math facts they should also be doing the MATH LIVE.

Just a reminder that the second opportunity HSA will be given sometime in February so try not to schedule any vacations or doctor appointments during this time.

Thank you all again for your support and your wonderful children!
Please email me with any questions or concerns.

Have a wonderful and safe vacation with your child and we will see your children on January 4th.

We all love our class!

Terry Mitsuda, Emily Pratt, and Stacy Kauffman
